

ODYSSEY

BENCHTOP MODELS

COMPACT TABLETOP DESIGN WITH AN ECONOMICAL PRICE POINT

The Odyssey bench model printers are great for start up shops or as a second press to print short run jobs. These presses are light weight and very easy to travel with. Take any of the Odyssey bench model presses to your next event for on-site screen printing.

Durable & Dependable Screen Printing Machinery

KEY FEATURES

CAPTURE FORK & BEARING REGISTRATION

Different from the nylon bolt style of the past, this system is derived from the same time tested registration used on all of our automatic presses. The system provides little to no wear and with no adjustments needed; this offers a lifetime of use with no fuss.

PRINT ARM CRADLE BRACKET

This strengthened arm support system utilizes a flat plate, four point flush, mounted connection — providing a stronger, more stable print arm with minimal pallet deflection.

HONEYCOMB TURRET DESIGN

This re-designed turret provides an easier to use carousel with improved structural support.

PRINT HEAD WITH MICRO REGISTRATION

Spring loaded micro registration system with easy to adjust handles and knobs. Has minimal to no backlash when in use allowing for the smallest of on head adjustments.

**Not included on 01100B*

COVERED SPRING CARTRIDGE

Compression springs provide a longer life span and are available with multiple tension settings from the factory. Covering them below the print head also provides a more secure setting.

ODYSSEY BENCH 4-1

This is our most popular table top press. This bench model press gives you 4 color capability at a budget price while being the most sturdy and durable bench model press on the market.

ODYSSEY BENCH 2-1

Our two color one station bench model press is the ideal entry level machine for multiple-color printing. It has the ability to add additional colors if needed and is one of the most inexpensive ways to start or expand your printing needs.

ODYSSEY BENCH 1-1

This machine is ideal for printing single color jobs on shirts, sleeves, tote bags, name drops, tagless labels, etc. without interrupting your large production machines. Add a jacket or vacuum attachment and convert this machine into a dedicated special purpose printer.
